We deliver our plants on our custom patented racks, the **Innocraft™ Display System**.

The practical and adjustable design makes the most of your display area and simplifies plant care.

- Pull out the shelves and hook them onto the metal tabs on each rung. This will display the plants out and down towards the customer (and the sunlight!)
- Tier the shelves equally on each side so the rack remains stable throughout.
- Metal shelves are completely adjustable and can be rearranged as product sells.
- The grid-style shelves allow water to run through them, effectively watering the plants beneath each shelf.

OUR CUSTOMERS COME FIRST.

Since 1980, our mission has been to grow high-quality, retail-ready plants that perform beautifully both in the garden center and in the garden. We produce a wide selection of annuals, perennials, and vegetables suited to the Pacific Northwest climate and aligned with current garden trends. We also offer indoor foliage year-round, ranging from rare varieties to household staples.

We value our customers deeply and are committed to providing exceptional service. From innovative display options to careful attention to resupply, we focus on the details that matter.

We appreciate your business and look forward to working with you in the industry we love—plants! Please feel free to give us a call if you have any questions.

greenhouses

FAMILY OWNED AND OPERATED

The Van Wingerden family's roots began in the Netherlands. Our heritage of growing excellence is reflected in our commitment to high-quality plants, exceptional service, and strong community partnerships. We operate 15 acres of growing space across two facilities and supply premium wholesale plants across Washington, Idaho, Oregon, and Northern California.
